Notes
1. The Social Allocation System was introduced in 2001 which changed the way applicants were assessed
2. Management of the Waiting List was passed to the Ministry of Social Development in 2014

Waiting list - average days to house – from 30 June 2015 (this data was provided by Ministry of Housing and Urban Development on behalf of the Ministry of Social Development)

Year	Total		
	Number Housed	Mean (days)	Median (days)
2015*	1,413	145	59
2016	6,591	125	55
2017	7,073	113	54
2018	6,587	140	80

Notes
1. After September 2015 time to house is defined as the number of calendar days between the date an application is first confirmed live on the Social Housing Register as an 'A' or 'B' priority and the date a tenancy is activated for that application.
2. The A and B priority applications used in these tables are as at the time of accepting an offer of social housing, the application priority may have changed prior to this date.
3. The quarter in which the tenancy was activated is the quarter in which the application has been reported as housed in.
4. Applications housed may have been housed with Housing New Zealand Corporation or with a Community Housing Provider.
5. It is not possible to produce data for 2015 prior to the December quarter due to the August IT implementation and migration of data.
6. Applications are considered housed in Social Housing when the application register status is changed to "active tenancy".
7. Note that the date a tenancy is activated may differ from the tenancy start date.
8. The mean average time to house is the total number of days to house all applications divided by the number of applications.
9. The median average time to house is the midpoint of the time to house values.

Notes:

1. The complaints include those that were unsubstantiated or were of a minor or trivial nature.
2. Anti-social behaviour is defined by Housing New Zealand as behaviour that lacks consideration for others and may cause damage to society. Activities that fall within the definition are unkempt sections, rubbish, noise issues, parking issues, behavioural issues (such as harassment, intimidation or verbal abuse), and illegal activities.
3. The data is a count of all complaints received and can include multiple complaints about single incident and/or about a single tenancy.
4. The data is by financial year.
